## BOOTH CO-COMPANY STAFFING

PTC/USER recognizes that some of our Global Partners utilize the services of “support companies” to provide assistance with sales and marketing during the Exhibition and Trade Show. Other Global Partners work together with technology partners to provide a complimentary solution for customers.

PTC/USER strictly adheres to a **one company per booth policy**. If your company needs the services of a “support company/technology partner”, and that “support company/technology partner” wishes to brand themselves separate from your company, then that “support company/technology partner” must register for the conference as (Co-Company Staffing).

Please contact Kevin K. Johnson ([kevin@ptcuser.org](mailto:kevin@ptcuser.org)) to register any “support company” that you will utilize.

Partners that require the services of “support companies/technology partners” that do not co-brand in the Partner’s booth or suite, may simply purchase additional conference badges for staffing that exceeds their allowed ‘non-transferable’ badge limit.
