

PTC/USER WORLD EVENT 2009

Celebrating 20 Years

Hello.

PTC/USER invites you to join us in Orlando, Florida June 7-10, 2009 as we celebrate our 20th anniversary at the PTC/USER World Event 2009. The PTC/USER World Event is the largest, most productive gathering of attendees from global companies that utilize the PTC suite of software products. We are again designing a stellar tradeshow format for Orlando at the new Rosen Shingle Creek Resort that will deliver outstanding value for our Sponsors and Partners.

In recognition of our 20th anniversary, PTC/USER will debut our restructured, rebranded Global Partner Program introducing greater value to you, our coveted partners and sponsors. Our new program will present an enhanced opportunity for you to meet with your customers and prospects including, technology implementers and managers; those who directly recommend and purchase technology-based products and services of leading global corporations and their suppliers using the PTC suite of software solutions. The 2009 event will feature approximately 2000 attendees, a dedicated high-level Management Forum and an exhibit hall including our Manufacturing Pavilion demonstrating dedicated machining and fabrication solutions.

Review the documents in our "Introduction" section of our Global Partner Program website www.ptcuser.org/2009/tradeshow.html. We think you will like the changes we have made and the increased opportunities for business interaction that we have provided. Finally, on behalf of PTC/USER, we thank you, our global partners for being with us over the years. You add so much value to our global members. Please let us know what else we can do to help you meet your objectives. See you in Orlando.

Best regards,
