TIME LIMITED OFFERS (TLO's)

RedEye On Demand *by* Stratasys (Booth 100)

www.RedEyeOnDemand.com

RedEye On Demand delivers your entire digital manufacturing experience: from prototyping, to jigs and fixtures, to end-use parts. Because we use state of the art equipment and engineering-grade thermoplastics, your last part looks the same as your first.

In appreciation for your attendance at the PTC/USER Conference, RedEye On Demand is offering 25% off your next order. Simply enter **PTC/USER** in the promotion box during checkout.*

Send, Quote and Print Your Design Today. www.RedEyeOnDemand.com

* RedEye On Demand promotional pricing may not be used in conjunction with other promotions and/or agreements without RedEye On Demand's authorization. Promotion code valid until July 31, 2009.

With RedEye you save time, cut costs and increase your options:

Save Time

- Point, click and order from the convenience of your desktop. Try our [online quoting system](#)
- Get your parts the next business day with RedEye's [Overnight Build](#)

Cut Costs

- We build what you need when you need it
- No capital equipment to buy or maintain

Increase Your Options

- Large Parts – build large parts and subassemblies with real thermoplastics
- Complex Parts – get accurate parts regardless of geometry
- Volume Parts – scale up from prototype to production with real parts, real fast
- Get access to a wide variety of 3D printing thermoplastic [materials](#)

The Productivity Project

(Booth 111)

Get Digitized!

Have you ever seen your face in 3D?
This is your chance!

Using a precision, ultra-fast, 3D surface imaging device, we will digitally scan your face in ~1.5 milliseconds. You will then see your personal 3D digital data in full color with 12 megapixel resolution.

You will see what truly makes you unique...

How far are your eyes apart? How big is your nose? Is your face really symmetrical?

Your digital data will be brought into PTC's Product Development System to create a unique one-of-a-kind product using software applications like Pro/ENGINEER and Pro/TOOLMAKER. The product can then be manufactured by one of the several rapid prototyping technologies in the Manufacturing Pavilion.

This digital experience with YOUR data will introduce you to new ultra-fast digital scanning, Pro/TOOLMAKER CAM programming, and the latest rapid prototyping technology. YOU will truly be an integral part of PTC's Product Development System!

Come and Get Digitized!

Authoring Coach™ Rebate Offering

PTC Arbortext customers are eligible for 25% off of Authoring Coach™ License

The amount of the rebate will be equal to the total invoice price of new Authoring Coach™ software license(s). Rebate good through July 30th, 2009.

Single-Sourcing, Inc.

www.single-sourcing.com

(Booth 118)

For a limited time only, we are offering an additional full month of Single-Sourcing Solutions Jump Start program for FREE with a regular purchase.

Expires 9/30/2009

ITC Infotech

www.itcinfotech.com

(Booth 310)

ITC Infotech is an application service provider with and a PTC Strategic Outsourcing Partner with strong competencies in the domain of Pro/Engineer Wildfire Services and Windchill.

ITC Infotech's Windchill Run Team Support offering helps organizations manage change, ensure business continuity and drive high adoption rates of Windchill while reaping a faster ROI and increased productivity all combined with a low total cost of ownership

ITC Infotech is offering a discount of 10% on the following Windchill Run Team Support packages contracted before August 10, 2009 by a company attending the PTC/USER World Event.

1. Shared Support Model
 - a. The 500 hr package
 - b. The 1000 hr package

2. Dedicated Support Model

Attend our presentation Monday 3:30PM-4:00PM, at Panzacola G2 and/or stop by Booth 310 to find out more about our Windchill Run Team Support service offerings.

Sigmatix, LLC
www.sigmetrix.com

(Booth 314)

Instructor-Led Training:

This is a 4-day class covering the CETOL user interface, fundamental statistics, GD&T, tolerance analysis modeling, and results interpretation. Highly skilled instructors/consultants lead this class and bring comprehensive industry application experience to the class. Students are encouraged to bring assembly models to class that are used to apply the CETOL modeling techniques to their product problems and generate initial analysis results. Students return to their work place with real hands on experience. Class size for the instructor-led programs is a maximum of ten students. Sigmetrix facilities are located in Indianapolis, Indiana, and McKinney (Dallas), Texas. **20% Discount for one student or receive a 35% Discount for 2 and up to 4 (max) students**

CETOL 6σ Software:

CETOL 6 Sigma is a comprehensive dimensional analysis tool used to analyze manufacturing processes and predict the amounts and causes of variation. CETOL's unique 3D Variation Behavior Modeling™ Technology is fully integrated with PTC Pro/Engineer and Wildfire 2, 3 and 4.0 software. CETOL provides comprehensive tolerance analysis and allocation tools that have been optimized for ease of use. CETOL provides unique very precise sensitivity animation, contribution analysis, statistical analysis and true worst case analysis. CETOL has a fully-integrated manufacturing process capability database and data collection module for including real manufacturing process variation into an analysis. CETOL has been optimized for design for Six Sigma methods and is proven on the most complex assemblies and mechanisms.

25% Discount (limit purchase of 4 seats)

To take advantage of either discount, please contact us at 972-542-7517 or email us at information@sigmetrix.com by September 15, 2009.

Fishbowl Solutions
www.fishbowlsolutions.com

(Booth 409)

Tradeshow Discounts:

- 20% OFF any Fishbowl Solutions product AND first year's maintenance for FREE.

All discounts valid to PTC/USER attendees for products and services purchased and delivered by September 30, 2009.

Products:

Fishbowl Solutions is your partner for bridging the gap in and between your Product Development Systems. Fishbowl Solutions' custom and out-of-the-box solutions automate, integrate and customize Pro/ENGINEER, Pro/INTRALINK, and Windchill PDMLink and ProjectLink solutions.

About Fishbowl Solutions:

Fishbowl Solutions is your expert and partner for Pro/ENGINEER, Pro/INTRALINK and Windchill Solutions. For more information on what Fishbowl Solutions can do for your organization, visit www.fishbowlsolutions.com or call Rick Passolt directly at (952) 465-3418.

We Automate. You Innovate.

EAC Product Development Solutions

<http://www.eacpds.com>

(Booth 508)

PTC/USER World Event 2009 attendees will Save \$200 when they buy a seat of Startup TOOLS™ from EAC! Startup TOOLS was named a **#1 Pick** by the EAC Technical Account Managers that bring you the EAC Free Lunch webcast series.

This is a great opportunity for users to gain access to the time saving interfaces and configuration management of Startup TOOLS™ for a fraction of the price.

● Purchase a seat of Startup TOOLS™ between 6-7-09 and 6-30-09

● Save \$200!

● Per seat cost merely \$750

Contact EAC for more information or to place an order.

Toll-Free: 1-888-225-7579

Website: <http://www.eacpds.com>

Offer valid for orders placed between 6-7-09 and 6-30-09. Startup TOOLS™ time-limited-offer does not include EAC Guided Installation or Customization.

Advanced Simulation for Pro/E

40% Off Femap with NEi Nastran

PTC/USER Members,

As a participant in the 2009 PTC/USER World Event take advantage of this very special offer of Femap with NEi Nastran Expert for only \$9,995. You must sign up at Booth 523 to secure a quote. The quote will be good until August 31st, 2009.

Advanced Simulation for Pro/E Users - Femap with NEi Nastran

Femap® by Siemens PLM Software is a professional level pre- and postprocessor that imports Pro/E geometry as well as all major CAD systems, and uses a wide variety of solvers including Finite Element Analysis (FEA) and Computation Fluid Dynamics (CFD).

NEi Nastran is tightly integrated with Femap providing a full range of advanced capabilities in linear and nonlinear structural and thermal analysis including

- Composites analysis with advanced failure criteria tools Puck and LARC02 and Progressive Ply Failure Analysis (PPFA™) for simulation beyond first ply failure
- Automated Impact Analysis (AIA™) for drop tests and implicit impact studies
- Productivity tools like Automated Surface Contact Generation (ASCG™) and Automated Edge Contact Generation (AECG™)

Stop by Booth 523 to secure your quote good until August 31, 2009.

Don't miss out on this exceptional offer for PTC/USER World Event attendees!

OFFERING: “SmartLibrary™ Screws & pins”

PTC/USER Tradeshow Discount: Time-Limited Offer discount price of \$500 (originally \$750) - Signup at the B&W booth (booth 606 near the hall entrance) for a price discount lock valid until September 30, 2009.

SmartLibrary™ helps users design faster and eliminate common errors such as hole misalignments and screw/thread mismatches. Library components and associated hardware (nuts, bolts, screws, washers, pins) are automatically retrieved and assembled by selecting design characteristics such as diameter, length, type, etc. Features such as clearance, threaded, and counter-bored holes are automatically created.

SIGMAXIM
www.sigmaxim.com

(Booth 607)

OFFERING: “Product Development Productivity Audit and Report”

PTC/USER Tradeshow Discount: 20% Conference-only Discount - Signup at the SIGMAXIM booth (booth 607 near the hall entrance) for a 60 days price discount lock.

SIGMAXIM, Inc., supplier of productivity improvement products and services for Pro/ENGINEER, is providing a 20% discount during the 2009 PTC/USER conference on one of their most popular process analysis offering. It helps companies identify areas where immediate and radical process improvements can be obtained in the Product Development Process, and helps them quantify the potential benefits. Gains typically exceed four folds in the identified areas.

OFFERING: “SmartLibrary™ Screws & pins”

PTC/USER Tradeshow Discount: Time-Limited Offer discount price of \$500 (originally \$750) - Signup at the SIGMAXIM booth (booth 607 near the hall entrance) for a price discount lock valid until September 30, 2009.

SmartLibrary™ helps users design faster and eliminate common errors such as hole misalignments and screw/thread mismatches. Library components and associated hardware (nuts, bolts, screws, washers, pins) are automatically retrieved and assembled by selecting design characteristics such as diameter, length, type, etc. Features such as clearance, threaded, and counter-bored holes are automatically created.

Go to <http://www.sigmaxim.com/html/ptcuserpromotion2009.html> for further details about this and other PTC/USER conference promotions.

New Boundary Technologies (Booth 624)

www.newboundary.com

New Boundary Technologies develops innovative IT automation software that simplifies Windows system administration, including intelligent, targeted, reliable deployment of complex engineering applications – to anywhere, from anywhere.

New Boundary Technologies is offering a discount of 15 percent off the license price of Prism Deploy® for companies attending the show. This offer is good through September 30, 2009.

ProductSpace Solutions (Booth 708)

www.productspace.com

FREE WINDCHILL UPGRADE!

PTC/USER World Event Special Extension good through October 2nd

For those PTC/USER World Event clients who sign-up for a 2-year [RAPiDS™\(Remote Administration for Product Development Systems\)](#) subscription by October 2nd, RAPiDS will include 1 free upgrade to the latest major release within the subscription period (Ex. Pro/I 3.4 to PDML 9.x, PDML 7.0 to PDML 9.x, PDML 9.0 to PDML 10.x).

ProductSpace will also include 1 free re-hosting of the production system if the customer desires to upgrade their hardware within the subscription period.
